1.Can a project Manager be a Scrum Master? Why or How?

- A projector Manager can be a Scrum Master.
- Scrum Master is equivalent to to a Project Manager but with different duties.Scrum master is neither authoritative nor poses a control over the team.
- Project manager can be a Scrum master if he has knowledge in scrum and has coaching and mentoring skills.
- A scrum Master is facilitator who guides and coaches the team and focus on collective productivity rather than individual performance assessment in a team

2.Can a Scrum Master be a Product Owner? Why or How?

A Scrum Master Cannot be a Product owner.

The both roles are contrast to each other in nature

- Product owner represents the customer whereas a scrum master is the facilitator of his team
- They both are different personalities on trying to fit into other role leads to a conflicting situation which affects the group dynamics and productivity
- Moreover it consumes more time
- Its better for scrum master to remain scrum master so that he can mentor his team and liaison with the product owner

3.A Member of the scrum team does not want to participate in the sprint planning meetings but considers them a waste of team.How do you as a scrum master deal with that attitude?

- I ,as a scrum master try to know the member's feelings about the particular scrum project.
- I try to know the predispositions in his mind which are causing such attitude towards the sprint planning meetings.
- I mentor him and guide him so that he can eliminate his predispositions and try to attend the sprint planning meetings.
- I coach him to make comfortable with sprints.

4.What is the difference between the product Backlog and Sprint Backlog? Justify with example

- The sum of all the sprint backlogs accounts to a product backlog.
- Development team controls the sprint backlog whereas product owner controls the product backlog

Example:

Product Backlog	Sprint Backlogs
Mould the Glass into a bottle	Sprint Backlog 1:Mould the Glass into a bottle
Fill the Concentrate	Sprint Backlog 2:Fill the Concentrate
Add Sugar,C02 water	
Packaging and labeling
